

**Harness the power  
of nature for  
problem free pool water**

**Nature's Care<sup>®</sup>**

## PHOSAWAY MAX Powers incredible amounts of phosphate out of water

### FEATURES & BENEFITS

Removes the most amount of phosphates in a single application

Ultra concentration

Less phosphate, less problems

**32 OZ** C005800-CS20Q 12/case

**64 OZ** C005800-CS6X64 6/case

**5 GAL** C005800-PL5SQN 1/case

### APPLICATION

Clean filter as necessary and balance water

Add 6 ounces per 10,000 gallons of water to remove up to 1,000 ppb of phosphates

Pool water may cloud temporarily after application, especially in colder water

Circulate and filter for at least 24 hours after treatment

Remove and rinse filter or backwash filter to flush collected phosphate from system

## PHOSAWAY Drives phosphate out of water for easy water care

### FEATURES & BENEFITS

Fast acting

Less phosphate, less problems.

**32 OZ** C004485-CS20Q 12/case

**64 OZ** C004485-CS6X64 6/case

**5 GAL** C004485-PL5SQN 1/case

### APPLICATION

Clean filter as necessary and balance water

Add 16 ounces per 10,000 gallons of water to remove up to 1,000 ppb of phosphates

Pool water may cloud temporarily after application, especially in colder water

Circulate and filter for at least 24 hours after treatment

Remove and rinse filter or backwash filter to flush collected phosphate from system

## PURE-ZYME All natural and biodegradable water additive to speed up the digestion of material in water

### FEATURES & BENEFITS

Highly concentrated, broad-spectrum enzyme

Does not affect pH

Improves water quality and clarity

Reduces filter maintenance

Product effectiveness increases as water temperature rises

**32 OZ** C004482-CS20Q 12/case

**64 OZ** C004482-CS6X64 6/case

**5 GAL** C004482-PL5SQN 1/case

### APPLICATION

Clean filter as needed and adjust water balance

Apply product when pool is not in use and with pump running

Add 4 ounces per 10,000 gallons weekly to the skimmer

Use as part of a weekly maintenance program

Apply twice weekly during heavy pool use

## PURE-ZYME WITH PHOSAWAY Concentrated enzyme and phosphate remover together in one convenient product!

### FEATURES & BENEFITS

Broad-spectrum, first-generation enzymes breakdown and reduces pool contaminants

Reduces and controls phosphate levels in pool water

Improves water quality and clarity

Reduces filter maintenance

Product effectiveness increases as water temperature rises

**32 OZ** C005916-CS20Q 12/case

**64 OZ** C005916-CS6X64 6/case

**5 GAL** C005916-PL5SQN 1/case

### APPLICATION

Resolve any pool water issues prior to application.

Reduce phosphate levels below 1,000 ppb prior to application with PhosAway

SHAKE bottle thoroughly before use

Avoid adding if sanitizer level is above 8 ppm

Apply 6 ounces per 10,000 gallons weekly to the skimmer

Avoid superchlorinating for 1 to 2 days after application

## **QUICK CURE** Removes heavy deposits of non-organic contaminants in pool water.

### **FEATURES & BENEFITS**

All-natural, cloudy water problem solver  
Fast acting clarifiers speed up the cleaning process of the pool  
Easy to use  
Compatible with all pool systems and water additives

**32 OZ** C004489-CS20Q 12/case  
**64 OZ** C004489-CS6X64 6/case

### **APPLICATION**

Remove any existing algae with EPA-approved algicide  
SHAKE bottle thoroughly before use  
Avoid adding Quick Cure if sanitizer levels are above 8 ppm  
Apply 16 ounces per 10,000 gallons weekly to the skimmer  
Check filter pressure and perform filter maintenance as needed  
If cloudy water persists, repeat treatment after 2 days

## **4-N-1 CLARIFIER** Chitosan-based, concentrated, natural polymer helps clear cloudy pool water fast.

### **FEATURES & BENEFITS**

Contains chitosan, derived from the exoskeleton of crustaceans  
All natural and biodegradable water clarifier  
Eliminates dissolved metals (iron, copper, etc.)  
Removes oil, soaps and other contaminants  
Improves filter efficiency  
Cannot be overdosed

**32 OZ** C005915-CS20Q 12/case  
**64 OZ** C005915-CS6X64 6/case  
**5 GAL** C005915-PL5SQN 1/case

### **APPLICATION**

Clean or backwash pool or spa filter prior to initial dose  
Add sparkle to water. Add 1 ounce per 7,500 gallons of pool water weekly  
For hazy water. Add 2 ounces per 5,000 gallons of pool water weekly  
For very cloudy water. Add 4 ounces per 5,000 gallons of pool water weekly

*Prolonged use will eliminate oils, trace metals, and improve filter efficiency.*

## **OPEN-CLOSE** Concentrated enzyme formulation for pool openings and closings.

### **FEATURES & BENEFITS**

Advanced formulation keeps pool water clear during the off season  
Concentrated enzymes break down organics in cold water  
Keeps pool liners supple and protects other vulnerable surfaces from decay.  
Biodegradable, environmentally friendly product.

**32 OZ** C004491-CS20Q 12/case  
**64 OZ** C004491-CS6X64 6/case

### **APPLICATION**

#### **POOL OPENING**

Circulate any new water with existing water in the pool  
Balance the pH, total alkalinity, and calcium hardness levels  
Apply initial dose of Di-Chlor Shock  
One week later, add one quart of Open-Close directly to pool for every 20,000 gallons of pool water.

#### **POOL CLOSING WITH COVER**

Treat the pool as normal for the off-season and circulate  
Drain water level to winterizing levels  
Add one quart of Open-Close directly to pool for every 20,000 gallons of pool water.  
Brush pool walls then cover

#### **POOL CLOSING WITHOUT COVER**

Treat the pool as normal for the off-season and circulate  
One week later, add one quart of Open-Close directly to pool for every 20,000 gallons of pool water.  
During extended period of unusual heat and/or precipitation, add another quart of Open-Close. This is to ensure consistent water conditions during the off-season

## INSTANT COVER

Forms invisible microscopic layer on still pool surfaces when applied.

### FEATURES & BENEFITS

- Small dosage needed
- Prevents evaporation
- Saves money on water evaporation
- Works in conjunction with solar covers

**32 OZ** C005310-CS20Q 12/case  
**5 GAL** C005310-PL5SQN 1/case

### APPLICATION

Shake product vigorously.

Apply directly to the skimmer. Product is safe for all equipment. With circulation system running, add 2 oz. per 300 sq. ft. of surface area. Apply weekly. See chart for common pool sizes.

Best uses: Apply normal dose after heavy bather load due to splash out and heavy rain. Apply twice a week in extreme heat in and out of the pool, or in drought conditions.

Pool Size	Approx. Weekly Dose
18' Round	2 oz.
24' Round	3 oz.
27' Round	4 oz.
16' x 32' Rectangle	3.5 oz.
18' x 36' Rectangle	4.5 oz.

Nature's Care from Haviland Pool & Spa is the line of safe and effective treatment products created to utilize natural enzymes, environmentally responsible manufacturing and recycle-content packaging. The result of nearly 50 years of pool treatment know-how, Nature's Care is the ideal solution to naturally maintain the delicate balance of pool water.
